REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record neither shows nor suggests a positioning sleeve securely sandwiched between an inner periphery delimiting a central hole of a clamping device and an axial tube of a disc carrier, the clamping device including plural clamping members for clamping an optical disc, in combination with the axial tube of the disc carrier being extended through the central hole of the clamping device.

See also Applicant's arguments filed May 31, 2005, which are persuasive.

The closest art of record is Liao et al (US Pat. No. 6272104 B1), which shows disc carrier 44, wherein an axial tube of a clamping device (including spindle 49, clamp members 50 and spring members 51) extends through a central hole of the disc carrier (see Fig. 4) such that bushing sleeve 45 is sandwiched between the axial tube of the clamping device and the central hole of the disc carrier.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
